

NovaTech Solutions - Internal Company Profile

Confidential Document - For Internal Use Only

1. Company Overview

NovaTech Solutions was founded in 2019 by Kareem Mansour and Lina Al-Harbi in Riyadh, Saudi Arabia. The company specializes in cloud infrastructure and AI-powered logistics systems. As of 2026, NovaTech employs 340 people across 4 offices: Riyadh (HQ), Dubai, Cairo, and Berlin. The company's annual revenue in 2025 reached \$47 million, a 38% increase from the previous year.

2. Products

NovaTech's main products are:

- FleetMind v3: An AI-powered fleet management platform used by over 200 logistics companies in the GCC. It uses real-time GPS, weather data, and predictive maintenance alerts.
- CloudNest Pro: A private cloud solution for mid-size enterprises, offering 99.98% uptime SLA and automatic compliance with Saudi NDMO data residency regulations.
- SmartRoute API: A routing optimization API that reduced delivery times by an average of 23% for its clients in 2025. Pricing starts at \$199/month for up to 10,000 API calls.

3. Key Employees

- Kareem Mansour (CEO): Co-founder with 15 years of experience in logistics software. Previously VP of Engineering at FastCargo Ltd. Holds an MBA from KAUST.
- Lina Al-Harbi (CTO): Co-founder and lead architect of FleetMind. She holds a PhD in Distributed Systems from TU Berlin and 3 patents in route optimization.
- Omar Ziyad (CFO): Joined NovaTech in 2022. Former financial analyst at Morgan Stanley Dubai. Responsible for the company's Series B funding round of \$18 million in 2023.
- Sara El-Nour (Head of AI): Leads the AI research team of 22 engineers. Published 7 papers on reinforcement learning for logistics between 2021 and 2025.

4. Financial Summary (2025)

Revenue breakdown by product in 2025:

- FleetMind v3: \$26.5 million (56% of total revenue)
- CloudNest Pro: \$14.2 million (30% of total revenue)
- SmartRoute API: \$6.3 million (14% of total revenue)

Total operating expenses were \$31 million, yielding a net profit of \$16 million. The company plans to reach \$70 million in revenue by end of 2027 through expansion into Turkey and Nigeria.

5. Internal Policies

- Remote Work Policy: Employees may work remotely up to 3 days per week. All remote work must be approved by the direct manager via the internal portal (HRConnect).
- Annual Leave: Full-time employees are entitled to 25 days of paid leave per year. Leave requests must be submitted at least 2 weeks in advance.
- Equipment Policy: Each employee receives a NovaTech laptop (Dell XPS or MacBook Pro) and a monthly internet allowance of 200 SAR.
- Performance Review: Reviews are conducted every 6 months in March and September. Bonuses range from 5% to 20% of annual salary based on performance score.

6. Upcoming Projects (2026)

- Project Falcon: A new AI model for predicting supply chain disruptions, expected to launch in Q3 2026. Budget: \$3.2 million.
- NovaTech Academy: An internal training platform for upskilling employees in AI and cloud technologies. Target: train 200 employees by December 2026.
- Partnership with LogiGulf Corp: A joint venture to deploy FleetMind in 15 Saudi government logistics departments starting Q2 2026. Contract value: \$8.5 million over 3 years.
